Leaderskill Group

Expert solutions for organisations and their people to perform at their best

We are an Australian consultancy with a global network of expert affiliates. Our work focuses on helping organisations achieve Employee Engagement and build success within a sustainable future.

Over three decades of innovation, we have pioneered ways to release the reciprocal contributions that people and their organisations can make to one another.

Our approach includes these components:

360 Facilitated® feedback

- **Needs-based, strengths-based** 360 feedback that is low threat and does not judge the manager.
- **Custom 360s** – your own 360 degree surveys hosted, supported and designed.

Organisational Surveys

Custom hosting for every need and design requirement.

e.g. Our **Building Trust Survey** shows you graphically where your organisation is building and breaking trust.

Career and Talent Management

Engage your people in creating their future – get the right people in the right jobs.

Appreciative Inquiry

Draw on employees' best contributions to drive the change process

Mega Planning for a Sustainable Future

Give people a vision they can believe in – discover the future in a world of change, and prove sustainability

Experience

We work with Private and Public Sectors including Universities and Schools of Management.

Our affiliates are in Australia, New Zealand, Canada, South Africa, India, Middle East, USA, UK and beyond.
